UNIQUE TITLES OF RAILROADS

A Texas road, the Kansas City, Beaumont & Gulf, is merely called Kaysee, cutting off the last part of it. Sap is short and sweet. It has been contracted from S. A. P., meaning San Antonio & Arkansas Pass, one of the principal lines in Texas.

Because a little road up in Nova Scotia with the ponderous title of the Dominion & Atlantic reached the land made famous in Longfellow's poem tourists have given it the title of the Evangeline road, and perhaps this is more appropriate than the other. It is certainly more picturesque.

Down in Texas and the neighboring states they have a habit of handling the railroads without gloves when it comes to giving names. A favorite plan is to take the principal initials of a road and spell them out. Only a native of the southwestern ranches would know that Pee Gee stands for the Kansas City, Pittsburg & Gulf road.

A little road in Mississippi, the Chester, Perryville, Sainte Genevieve & Farmington, has the longest title of any in America. This contains no fewer than 43 letters, but two other lines are close to it, the Richmond, Nicholasville, Irvine & Beattyville and the Southwest, Arkansas & Indian Territory. The Chester line is only 27 miles long.

Only one man has had the honor of having his name used in connection with one of the largest systems. The late Henry M. Plant has a monument in the Plant Railway and Steamship company. He started the system, which has expanded from a few miles until it extends through Georgia, Florida and Alabama, representing in all 2,000 miles, not including several steamship lines.

OF CHURCH INTEREST.

There are 618 Catholic priests in active service in Wisconsin.

Australia has 6,100 churches, 210 for every 10,000 of her population.

Last year there were 61,570 pupils in the Catholic parochial schools in Massachusetts.

It is estimated that there are now 25,000,000 communicants of Presbyterian churches.

A feature of some 50 Congregational churches are men's clubs which aim to keep up good fellowship and secure concerted action on matters of municipal reform.

The remarkable longevity of the Society of Friends has been fully sustained during the last year, the average age at death from 1 to 100 years in the United Kingdom being 61 years 7 months and 7 days. Two members (both females) were over 100.

Gen. Booth, being asked with what: "What is your opinion of the chief danger, social or political, that confronts the coming century?" replied: "I am of opinion that the chief dangers which confront the coming century will be religion without Holy Ghost; Christianity without Christ; forgiveness without repentance; salvation without regeneration; politics without God; and Heaven without hell."

COLLEGE ATHLETICS.

The University of Pennsylvania is trying to raise \$4,000 to send its crew to Henley to compete against Oxford and Cambridge.

Thirty-five of the 2,650 students of Yale university responded to a call for a mass meeting to pass on rules for the eligibility of athletes. The thirty-five made the rules for 900 baseball, football and track men.

For eight years a Fulton has played second base for the University of Illinois baseball team. This year Bruce Fulton, who was expected to hold the position, is ill and the long line of succession in the Fulton family will be broken.

It doesn't take an acrobat to do a turn on the vaudeville stage.

HIS LIFE SAVED

By Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"I am sure that Chamberlain's Colic, Cholera and Diarrhoea Remedy at one time saved my life," says A. E. Lafayette, of Gregory Landing, Clark county, Missouri. "I was in such bad shape that the doctors said I could not live. When I was at the lowest ebb, one of my neighbors brought in a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and I took it and got instant relief. I soon got up and around. That was nine years ago and I am still in good health. Since then that medicine has always been in my house and always will be. It is the best on earth."

For sale by Anderson Drug Co.; Shorter, Darlington Heights, drug store.

Whisky is gaining ground in Germany. From July 1, 1899, to June 30, 1900, 411,489 gallons of bourbon and 137,578 gallons of rye whisky were imported there from the United States.

Lubeck is about to exercise its right as a free city to issue a coinage of its own. The city arms will take the place of the kniser's head on one face of the German coins. The last Lubeck coins were struck a hundred years ago in 1801.

Switzerland has over 1,700 hotels.

During the last ten years there were 10,924 requests for citizenship in Switzerland, of which 7,833 were granted.

A landslide occurred recently in Switzerland. An inn and its garden and outbuildings slid down a hillside a distance of 35 feet without being in the least injured. Two stately elm trees in the garden were also moved without injury.

Switzerland is the oldest republic on record, and has existed as such surrounded by forms of government entirely different. It has maintained its position not by extent of territory, population or military power but by the jealousy of the nation surrounding it.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armock, N. Y., "but, whi all other remedies failed, we saved her life with Dr. King's New Discovery. Our nice, who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well."

PEOPLE ON THE STAGE.

Mme. Bernhardt has played 112 different roles.

Bertha Galland, now in the support of James K. Hackett, will be placed at the head of her own company by Daniel Fruhman next season.

"It's queer how the uninitiated think the malady called stage fright is peculiar to novices," says an actor of long standing. "As a matter of fact, the older players sometimes have it worse than do the new ones in the profession."
